ACKNOWLEDGEMENT

Restructuring the curriculum exposes students to various subjects, ensures the development of a well-rounded skill set and empower them to succeed in an evolving global landscape. Effort has been taken to include innovation and improvement in FYUGP Sociology course-curricula by the introduction of paradigm shifts in learning and teaching pedagogy, examination, and education system. Flexibility in education system which enhances mobility, employability and competitiveness is allowed so that students depending upon their interests and aims can choose interdisciplinary, intra-disciplinary and skill-based courses. The curriculum ensures adequate justice to different areas of social issues of contemporary significance. It aims at equipping the students with an orientation to apply the knowledge they acquire in significant areas of everyday life in relation to the science of society. Curriculum restructuring was successfully implemented, new courses were incorporated and changes were made to ensure that the new structure of the programme offered meet the quality and standard as required by the society.

*There are many personalities whose relentless support and guidance made this syllabus restructuring a success. It took a collective effort from the team to complete the process of syllabus designing and curriculum development on time. I take this opportunity to express my sincere appreciation to all those who were part of this endeavor for restructuring the syllabus of FYUGP in Sociology. I express profound gratitude to the **Hon.Vice-Chancellor, Pro-Vice Chancellor, Registrar, Members of the Syndicate, Academic Council and Academic Committee (CU-FYUGP)** for their sincere co-operation and guidance for completion of this work. I place on record my wholehearted gratitude to **Ms.Rakhi N.**(Head, Department of Sociology, The Zamorins Guruvayurappan College, Calicut and Chairperson, Board of Studies Sociology PG) for the help and support given in the entire process of restructuring of syllabus. I also thank **Ms.Beena C.A.** (St Joseph's College, Irinjalakuda), **Dr.Leela.P.U, Ms. Elizabeth Abraham, Dr.Linda Therese Luiz** (St.Teresa's College, Ernakulam), **Dr Prasad R** (University of Calicut), **Dr. Rekhasree.K.R** (NSS College, Panthalam), **Sr. Jisha Chakkunny M** (Carmel College, Mala), **Sr. Shipsy Augustine** (St Mary's College, Thrissur), **Dr. Biju Vincent** (SSUS, Kalady), **Sri Sreejith K, Mr. Vinod C V** (Govt. INTRODUCTION

Government of Kerala initiated steps for a comprehensive reform in undergraduate curriculum, where a four-year structure with a single lateral exit option will replace the present three-year structure. The proposed pathways extend further into the postgraduate and doctoral programmes, where the fourth year of the undergraduate stream will be integrated with the first year of the postgraduate programmes. In this context, the University of Calicut has formulated a set of new regulations for the four-year UG programmes which envisage a people-centered knowledge society considering the rich diversity of our society and the varied aspirations of the diverse groups that constitute it. It aims to develop a scientifically and technologically skilled group of social persons capable of contributing to the multifarious tasks of social and economic development of Kerala. Outcome-based approach which is a student-centered instruction model that focuses on measuring student performances through outcomes is the thrust of the curriculum and syllabus.

The Four-Year Undergraduate Programme in Sociology aims to develop and disseminate knowledge, skills and values through teaching, field-based training, internship, and research projects to promote, maintain and improve the functioning of individuals, families, groups, organizations, and communities. The curriculum for Sociology at undergraduate level therefore, has incorporated certain new components of learning to make it relevant to contemporary society and modern practices. The syllabus designing and curriculum development of various courses has been done with a view that it will be of immense relevance to the prospective graduates having interest in understanding society, doing research, and finding out practical solutions to the existing social problems. Considering the dynamic nature of society, sociology as a discipline has immense importance to develop competencies and skills required for keeping oneself professionally engaged and personally well informed to participate in the social learning process to update knowledge and practice. The syllabus and curriculum designed will be very advantageous to make students of Sociology more dynamic and adaptable by enhancing their skills leading to their increased employability. The learning experiences will enhance the abilities of students who come from diverse backgrounds and will also provide opportunities to develop individual potentialities and to produce a pool of better professionals in every forthcoming year.

AIMS AND OBJECTIVES

The curriculum and syllabus for FYUGP in Sociology has been developed based on the new Curriculum Framework suggested by UGC and Kerala Higher Education Council and considering the new set of regulations for FYUGP proposed by University of Calicut and it tries to provide a firm foundation in every aspect of sociology and to explain the modern trends in sociology. The Four-Year Under Graduate Programme in Sociology aims to prepare students for a rapidly changing world by equipping them with the tools and knowledge to analyse and explore the challenges faced by contemporary societies. It introduces students to a sociological perspective- a certain way of looking at the world, its societies and the changes that take place. The students are exposed to divergent perspectives in sociology to make sure that they acquire the necessary skills to understand a context and various social phenomena. Students will gain a deep knowledge about the institutions that shape our relationships as individuals and collectives. They will gain a greater understanding of the world around them, the directions it is taking, and how to transform it to create more just and humane forms of social arrangements. Students will study specialized areas and they will delve deeper into sociological research, data analysis, social issues, and contemporary social problems.

SCOPE, APPLICATION AND COMMENCEMENT

The syllabus provided herein shall apply to all Regular/ School of Distance Education (SDE) UG programmes conducted in the affiliated colleges by the University of Calicut and shall come into effect for the admissions commencing from the academic year 2024-2025. The provisions herein supersede all the existing regulations for the regular UG programmes under various Faculties conducted by University of Calicut unless otherwise specified. Every programme conducted under the Four-Year Under Graduate Programmes (FYUGP) in a college shall be monitored by an CUFYUGP committee comprising members nominated by the College Council along with two external members nominated by the University. Every UG programme conducted under CUFYUGP in SDE Registration shall be monitored by Director of SDE.

21. **‘Act’** means Calicut University Act, Statutes, Ordinances and Regulations.
22. **‘Graduate Attributes’** means the qualities and characteristics possessed by the graduates of a programme of study at the University, which include the learning outcomes related to the disciplinary areas in the chosen field of learning and generic learning outcomes.
23. **‘Credit’(C)** is a unit of academic input measured in terms of weekly contact hours/course contents assigned to a course. A course that includes one hour of lecture or tutorial, or a minimum of two hours of lab work /practical work /field work per week is given one credit hour.
24. **‘Letter Grade’** or simply **‘Grade’** in a course is a letter symbol (O, A+, A, B+, B, C, P, F and Ab) that represents the alphabetical grade awarded to a student based on his/her performance in various examinations.
25. Each letter grade is assigned a **‘Grade Point’ (G)** which is an integer indicating the numerical equivalent of the broad level of performance of a student in each course. Grade Point means point given to a letter grade on a 10-point scale.
26. **‘Credit Point’(P)** of a course is the value obtained by multiplying the grade point (G) by the credit (C) of the course: $P = G \times C$.
27. **‘Semester Grade Point Average’ (SGPA)** is the value obtained by dividing the sum of credit points obtained by a student in the various courses taken in a semester by the total number of credits in that semester. SGPA shall be rounded off to three decimal places. SGPA determines the overall performance of a student at the end of a semester.
28. **‘Cumulative Grade Point Average’ (CGPA)** is the value obtained by dividing the sum of credit points in all the semesters earned by the student for the entire programme by the total number of credits in the entire programme and shall be rounded off to three decimal places.
29. **‘Grade Card’** means the printed record of students’ performance, awarded to him/her.
30. **‘Academic Bank of Credit’** is a digital repository established by University Grants Commission to accumulate and archive in the academic accounts of the students, the

credits earned by them through different courses and programmes across various higher educational institutions.

31. **'Strike off the Roll'** means that a student who is continuously absent for 14 days without sufficient reason and proper intimation to the principal of the college shall be removed from the roll.

FEATURES AND OBJECTIVES OF CUFYUGP

The features and objectives of the Calicut University Four-Year Under Graduate Programmes (CUFYUGP) shall be as follows:

1. The features, meaning, and purpose of CUFYUGP shall be as stipulated by the UGC and as adapted by the Kerala State Undergraduate Curriculum Framework (KSUCF).
2. The practice of lateral entry of students to various years exists, but an exit with a Degree shall be awarded only upon successful completion of the third year.
3. CUFYUGP shall have three Broad Pathways, (a) 3-year UG Degree, (b) 4-year UG Degree (Honours), and (c) 4-year UG Degree (Honours with Research).
4. Students who choose to exit after 3 years shall be awarded UG Degree in their respective Major Discipline after the successful completion of the required minimum of courses of total 133 credits.
5. A four-year UG Degree (Honours) in the Major Discipline shall be awarded to those who complete the CUFYUGP with a specific number of courses of total 177 credits, including 12 credits from an optional graduate project /dissertation in their Major/ allied discipline.
6. Honours students who have not undertaken their graduate project shall do three additional courses in the Major discipline, each comprising four credits.
7. Students who aspire to pursue research as a career may opt for Honours with Research stream in the fourth year. A four-year UG Degree (Honours with Research) in the Major Discipline shall be awarded to those who complete the CUFYUGP with a specific number of courses of total 177 credits, including 12 credits from a mandatory graduate research project /dissertation in their Major discipline.
8. The approved research centres of this University or any other university / higher educational institution (HEI) can offer the Honours with Research programme.
9. The departments in the affiliated colleges under the University, which are not the approved research centres of the University, should get prior approval from the University to offer the Honours with Research programme. Such departments should have at least one faculty member with Ph.D., and they should also have the necessary infrastructure to offer Honours with Research programme.
10. Students who secure 75% marks and above (equivalently, CGPA 7.5 and above) cumulatively in the first six semesters are eligible to get selected to Honours with Research stream in the fourth year.
11. A faculty member of the University/ College with a Ph.D. degree can supervise the research project of the students who have opted for Honours with Research. One such faculty member can supervise a maximum four students in Honours with Research stream.
12. The students who have opted for the Honours with Research should successfully complete a research project under the guidance of the mentor and should submit a research report for evaluation. They need to successfully defend the research project to obtain 12 credits. The research shall be in the Major/ allied discipline.
13. The proposed FYUGP curriculum shall comprise Three Broad Parts: a) Foundation Components, b) Discipline Specific Pathway components (Major/ Minor), and c) Discipline Specific Capstone Components.

14. The Foundation component of the FYUGP shall consist of a Set of General Foundation Courses and a Set of Discipline Specific Foundation Courses.
15. General Foundation Courses shall be common for all students and shall be grouped into 4 major baskets as Ability Enhancement courses (AEC), Skill Enhancement Courses (SEC), Value Added Courses (VAC), and Multi-Disciplinary Courses (MDC).
16. Discipline Specific Foundation Courses are the Major and Minor courses in the first two semesters. They shall focus on foundational theories, concepts, perspectives, principles, methods, skills, and critical thinking essential for taking up advanced Courses.
17. Ability Enhancement Courses shall be designed specifically to achieve competency in English and Additional Languages as per the student's choice with special emphasis on language and communication skills.
18. The courses on Additional Languages shall be designed to enable the students to acquire and demonstrate the core linguistic skills, including critical reading and academic writing skills, expository as well as the cultural and intellectual heritage of the language chosen.
19. Multi-disciplinary Courses (MDC) shall be so designed as to enable the students to broaden their intellectual experience by understanding the conceptual foundations of Science, Social sciences, Commerce, Language, Humanities, and Liberal Arts. All the UG students are required to undergo two introductory-level MDC in any of the disciplines other than their chosen Major discipline, and a third MDC in Kerala-knowledge System, to be offered by English and Additional Language disciplines.
20. Skill Enhancement Courses (SEC) shall be designed to enhance workplace skills such as Creativity, Critical Thinking, Communication, and Collaboration—21st-century Skills.
21. Value Added Courses (VAC) shall be so designed as to empower the students with personality development, perspective building, and self-awareness.
22. Discipline Specific Pathway Components (Major/ Minor) shall provide the students with an opportunity to pursue in-depth study of a particular subject or discipline and develop competency in that chosen area, which includes Major courses, Minor courses, and discipline specific elective Courses.
23. Major Components shall be the focus of study. By selecting a Major, the student shall be provided with an opportunity to pursue an in-depth study of a particular discipline.
24. The students in a Major discipline can choose as their Minor stream a discipline other than their discipline. Students shall have the option to choose courses from disciplinary/ interdisciplinary Minors and skill-based courses related to a chosen vocational education programme.
25. Students shall be permitted to switch their Major at the end of the second semester by giving them sufficient time to explore different courses during the first year.
26. The student has the option to register for and attend a course without taking part in the continuous assessment and end-semester examination of that course. Such a course is called the Audit Course. If the student has 75% attendance in an Audit Course, he/she is eligible for a pass in that course, without any credit (zero-credit). The Audit Course will be recorded in the final grade card of the student. This option can be used by the student to gain interdisciplinary knowledge.
27. Major components consist of three types: Discipline Specific Core Courses, Discipline Specific Elective Courses, and Research/ laboratory/ fieldwork.
28. The Capstone-Level Courses shall be designed in such a manner to enable students to demonstrate their cumulative knowledge in their main field of study, which shall include advanced thematic specialization or internships, community engagement or services, vocational or professional training, or other kinds of work experience.

29. Advanced Major Specialization shall include courses focused on a specific area of study attached to a specific Major, which could be an Elective Course. They shall include research methodology as well.
30. All students shall undergo Internship or Apprenticeship in a firm, industry or organization, or training in labs with faculty and researchers of their own institution or other Higher Educational Institutions (HEIs) or research institutions.
31. Students shall be provided with opportunities for internships with local industries, business organizations, agriculture, health and allied sectors, Local Government institutions (such as panchayats, municipalities), State Planning Board, State Councils/ Boards, elected representatives to the parliament/ state assembly/ panchayath, media organizations, artists, crafts persons etc. These opportunities will enable the students to actively engage in the practical aspects of their learning and to improve their employability.
32. Social Activities shall include participation in National Service Scheme (NSS), sports and games, arts, participation in university/college union related activities (for respective elected /nominated members), National Cadet Corps (NCC), adult education/literacy initiatives, mentoring school students, and engaging in similar social service organizations that deemed appropriate to the University.
33. Options shall be made available for students to earn credit by completing quality- assured remote learning modes, including online programmes offered on the Study Webs of Active Learning for Young Aspiring Minds (SWAYAM) or other online educational platforms approved by the Board of Study from time to time.
34. Students shall be entitled to earn a maximum 16 credits through such online courses in their eighth semester to complete the minimum credits required for the award of the four-year Honours Degree.
35. The University shall advise the students to opt for such Online/ MOOC/ Signature Courses that have a comprehensive graded evaluation with proper grades and grade points.

CREDIT STRUCTURE OF CUFYUGP

The proposed number of credits and the credit distribution for each course of the Undergraduate Programmes are given below:

1. An academic year shall consist of 200 working days with two semesters and a summer vacation. In each semester there are 90 working days for academic activities and 10 additional working days for co-curricular and student orientation programmes.
2. A semester consists of 18 weeks for academic activities with 5 working days per week. In each semester, 3 weeks (15 working days) should be kept aside for examinations, including internal examination evaluation and other academic activities.
3. The maximum number of available weeks for curriculum transactions should be fixed as 15 weeks in each semester.
4. Instructional hours include teaching hours and tutorial hours. A minimum of 5 teaching hours and 1 tutorial hour should be made available for a day in a 5-day week.
5. A total of 450 instructional hours will be available for each semester, including 25 teaching hours and 5 tutorial hours per week,
6. For the effective implementation of CUFYUGP, a system of flexible timings and time table shall be provided for the students and teachers as per the choice of each college.
7. Library and Laboratory facilities shall be accessible for the students for at least two hours after the regular academic transactions.
8. A course that includes one hour of lecture or tutorial, or a minimum of two hours of lab work /practical work /field work per week, is given one credit hour. That is, 1 credit hour in theory per week equals 1 lecture or tutorial hour per week plus 2 hours of learner

engagement in terms of course-related activities, and 1 credit hour in practical / practicum per week equals 2 hours of lab work / practical work / field work / hands-on experience per week.

9. One credit in a semester should be designed for 15 hours of lectures or tutorials or 30 hours of practicum plus 30 hours of learner engagement in terms of course-related activities such as seminar preparation, submitting assignments, etc.
10. A 4-credit discipline specific course (Major and Minor) in theory consists of 4 hours of lecture / tutorial classes per week and 60 hours of lecture / tutorial classes in a semester.
11. A 3-credit general foundation course (AEC, SEC, VAC and MDC) in theory consists of 3 hours of lecture / tutorial classes per week and 45 hours of lecture / tutorial classes in a semester.
12. A discipline-specific course with theory component and practical / practicum component is of the form 3-credits in theory component and 1-credit in practical / practicum component. It consists of 3 hours of lecture / tutorial classes and 2 hours of practical / practicum classes per week. This amounts to 45 hours of lecture / tutorial classes and 30 hours of practical/ practicum classes per semester.
13. A general foundation course with theory component and practicum component is of the form 2-credits in theory component and 1-credit in practicum component. It consists of 2 hours of lecture / tutorial classes and 2 hours of practicum classes per week. This amounts to 30 hours of lecture / tutorial classes and 30 hours of practicum classes per semester.
14. In the syllabus of a course with only theory components, there can be five modules. Out of these, one module of 20% content of the syllabus should be left as open-ended. Only a broad outline of the content of this module needs to be given by the BoS. The detailed content of this module can be decided by the individual instructor who teaches this module, and its evaluation can be completely done in the continuous assessment mode at the college. This module will not be included in the end-semester examination.
15. The open-ended module in theory is not included in the course with a practical / practicum component. In such courses a part of the practical / practicum component should have an open-ended nature.
16. A one-credit Seminar or Internship or Studio activities or Field practice/ projects or Community engagement and service means two-hour engagements per week (30 hours of engagement per semester)
17. A course can have a combination of lecture credits, tutorial credits, and practicum credits.
18. Minimum credit for one course should be 2, and the maximum credit should be 4.
19. All discipline-specific courses (Major and Minor) shall be of 4 hours duration per week or as appropriate in the case of the addition of practical / practicum component.
20. All Courses under the Multi-disciplinary, Ability Enhancement, Skill Enhancement and Value-Added categories shall be given 3 hours per week or as appropriate in the case of the addition of practical / practicum component.
21. Internship, Apprenticeship, Community outreach activities, etc. may require sixty hours of engagement for acquiring two credits.
22. Institute / Industry Visit can be a part of the successful completion of Internship, if the BoS of the Major discipline finds it necessary.
23. Students participating in activities of NCC / NSS / College Fitness Education Programme (COFE), students participating in zonal level events of arts and sports, and the elected members of the college union are eligible for 3 credits corresponding to SEC3 in semester VI. They are eligible for Pass (letter grade P) with grade point 4 and marks 33. Such students have the choice to improve their grade by taking part in the continuous assessment and the end-semester examination of this course. In that case, the higher grade point they subsequently acquire shall be considered as the final grade point, with corresponding letter grade, for SEC3.

24. Grace marks shall be awarded to a student for meritorious achievements in co-curricular activities (in Sports/ Arts/ NSS/ NCC) carried out besides the regular hours. Such a benefit is applicable in the same academic year spreading over two semesters, in which the said meritorious achievements are earned. Grace marks shall also be awarded to a person with disability, and such other categories as may be decided by the University from time to time. The Academic Council shall decide from time to time the rules of awarding the grace marks.
25. A student should get an option for acquiring a maximum of 180 credits for a 3-year (6 semester) UG programme. The additional 47 credits over the minimum of 133 can be acquired through online courses.
26. A student should get an option for acquiring a maximum of 240 credits for a 4-year (8 semester) UG programme. The additional 63 credits over the minimum of 177 can be acquired through online courses.
27. Courses up to 25 credits shall be designed for each programme in each semester with the available teaching hours for each semester.
28. Maximum number of credits that a student can take per semester shall be 30.
29. Candidates who wish to complete the undergraduate programmes faster may do so by completing different online courses equivalent to the required number of credits, and fulfilling all other requirements, in (N-1) semesters, where N is the number of semesters in an undergraduate programme.

ACADEMIC LEVELS OF DISCIPLINE-SPECIFIC PATHWAY COURSES

The pathway courses shall be coded based on the learning outcomes, levels of difficulty and academic rigor. The coding structure is as follows:

Table-1: Academic Levels of Discipline-Specific Pathway Courses

Sl. No.	Academic Level	Nature of the Courses	Implementation in CUFYUGP	
			Semesters	Minimum Credits
1	0 – 99	Prerequisites for foundation courses	-	-
2	100 – 199	Foundation courses	1 & 2	24
3	200 – 299	Intermediate level courses	3 & 4	28
4	300 – 399	Higher level courses	5 & 6	42*
5	400 – 499	First year PG level courses	7 & 8	44**

* Out of 42 credits, 2 credits are from Internship.

** In the case of students opting a pathway with a Minor, 12 credits out of 44 can be of 300 – 399 level

COURSE STRUCTURE OF CUFYUGP

1. The duration of 3-year UG Degree programme shall be six semesters distributed in a period of three years, 4-year UG Degree (Honours) programme shall be eight semesters distributed in a period of four years, and 4-year UG Degree (Honours with Research) shall be eight semesters distributed in a period of four years.
2. The odd semesters (1, 3, 5, 7) shall be from June to October and the even semesters (2, 4, 6, 8) shall be from November to March.
3. The CUFYUGP shall consist of the following categories of courses and the minimum credit requirements for each of them shall be as follows:

(A) General Foundation Courses

1. It is mandatory for all students who enroll in CUFYUGP to acquire 39 credits from 13 general foundation courses, with 3 credits for each course.
2. Out of the four Ability Enhancement Courses (AEC), AEC1 in semester I and AEC3 in semester II shall be offered by English discipline only, and AEC2 in semester I and AEC4 in semester II shall be offered by Additional Language disciplines only.
3. Out of the three Multi-Disciplinary Courses (MDC), MDC1 in semester I and MDC2 in semester II can be offered by all the disciplines, including single-faculty disciplines and physical education discipline.
4. MDC3 in semester III is based on Kerala-knowledge System (KS) and it shall be offered by both the English and Additional Language disciplines only. The students can opt either the course offered by their Additional Language discipline already chosen in AEC2 and AEC4, or the one offered by the English discipline.
5. Out of the three Value Added Courses (VAC), VAC1 in semester III and VAC2 in semester IV shall be offered by English discipline only, and VAC3 in semester IV shall be offered by the additional language discipline only.
6. Out of the three Skill Enhancement Courses (SEC), SEC1 in semester IV shall be offered by English discipline only.
7. SEC2 in semesters V can be offered by all the disciplines, including single-faculty disciplines and physical education discipline.
8. The students should take SEC3 in semester VI offered by their Major discipline only.
9. In the case of the Double Major pathway, except for the four Ability Enhancement Courses (AEC), all the other nine general foundation courses shall be offered by the two Major disciplines involved in the Double Major pathway, in the proportion shown in Table-6 and Table-7 and Table-9
10. AEC1, AEC3 and SEC1 have theory component of 2-credits and practicum component (P) of 1-credit.
11. Corresponding to each of the six courses AEC1, AEC3, VAC1, VAC2, MDC3(KS) and SEC1, English discipline will offer a different English course each for (i) Languages, (ii) Humanities and Other BA programmes, (iii) Sciences, and (iv) Commerce and Management, to address the specific requirements of each discipline, and teach the course separately for the above four streams of disciplines.
12. Corresponding to each of the four courses AEC2, AEC4, MDC3(KS) and VAC3, every Additional Language discipline will offer a different course in that language each for
13. Languages, Humanities and Other BA programmes, (ii) Sciences, and (iii) Commerce and Management, to address the specific requirements of each discipline, and teach the course separately for the above three streams of disciplines.
14. In the case of a Double Major pathway involving Major disciplines belonging to two different streams, the students can choose to take the Ability Enhancement Courses offered to one of the streams by English and Additional Language disciplines.
15. In the case of the nine general foundation courses taught by the language disciplines, the maximum number of students in a batch is limited to 75. If the total number of students is less than or equal to 94, they should be accommodated in the same batch. If the total number of students exceeds 94, the next batch can be formed after allocating 75 students in the first batch.

The credit distribution for each of the four different sub-categories of General Foundation Courses shall be as given below:

Table-2: General Foundation Courses

Sl. No.	Name of the General Foundation Course	No. of Courses	Required Credits	Distribution among the Semesters and the Disciplines in CUFYUGP		
1	Ability Enhancement Course (AEC)	4	12	Sem I	AEC1 (P)	English (E)

(B) Discipline-Specific Pathway Courses and Capstone Components in the Three-Year Programme in CUFYUGP

1. The student who wishes to exit with a degree after three years needs to acquire 94 credits from discipline-specific foundation, pathway, and capstone level courses, with 4 credits for each Discipline-Specific Course and 2 credits for the Internship.
2. The minimum number of elective courses that can be offered by a discipline in the three-year programme shall be four, with two each in semesters V and VI.
3. The maximum number of elective courses that can be offered by a discipline in the three-year programme shall be six, with three each in semesters V and VI.
4. In both semesters V and VI, minimum twice the number of elective courses should be designed, to provide choice to the students. There is no upper limit to the number of elective courses in the basket of elective courses in semesters V and VI.
5. A signature course in the Major discipline designed by a faculty member, after being approved by the BoS, can be incorporated as a Major elective course.
6. If four elective courses in semesters V and VI, with total 16 credits, belong to one field, they constitute a specialisation in that Major discipline. BoS should specify the list of the four elective courses that constitute a specialisation. There can be more than one specialisation from the different combinations of the electives in semester V and VI. The arrangements of elective courses in the basket should be such that a department can offer minimum four courses constituting a specialisation in the Major discipline, if at least one specialisation is envisaged by the grouping of the elective courses. However, offering the

courses constituting a specialisation is not mandatory. This is the choice of individual departments. The specialisation shall not be extended to the fourth year.

7. The colleges planning to offer new Double Major programmes should obtain prior approval from the University for these programmes before the commencement of the admission procedure. There should be sufficient existing workload for offering new Double Major programmes. Those colleges with existing Dual Core programmes can continue to offer the corresponding Double Major programmes.
8. One complementary programme with varied number of courses in the existing UG programme is replaced by three Minor courses in CUFYUGP. A Minor programme in CUFYUGP consists of 6 Minor courses in the first three years.
9. Students in Single Major pathway can choose course/courses from any of the Minor groups offered by a discipline other than their Major discipline.
10. Students in Major with Multiple Disciplines pathway can choose as one of the multiple disciplines, all the three courses from any one of the Minor groups offered by any discipline, including their Major discipline. If they choose one of the Minor groups offered by their Major discipline as the first one of the multiple disciplines, then their choice as the second one of the multiple disciplines should be any one of the Minor groups offered by a discipline other than the Major discipline.
11. Students in Major with Minor pathway can choose all the courses from any two Minor groups offered by any discipline.
12. Every discipline can offer three of its Major courses in semesters I, II and III as Minor courses to students from other disciplines.
13. The suggested credit distribution for each of the sub-category of Discipline- Specific Courses in the first three years of CUFYUGP is given in Table-3, for the academic pathway “Major with Minor”.

Table-3: Discipline-Specific Courses in a Three-Year Programme in CUFYUGP

Sl. No.	Nature of the Discipline-Specific Course	No. of Courses	Required min. Credits
1	Major Pathway Courses	17	68
2	Minor Pathway Courses	6	24
3	Internship / Apprenticeship	-	2
	Total in the first three years of CUFYUGP	23	94

(C) Discipline-Specific Pathway Courses and Capstone Components in the Fourth Year of CUFYUGP

1. The student who wishes to continue to the fourth year for the Honours degree should pass all the courses in the first three years and earn 133 credits.
2. He/she should acquire minimum 44 credits during the fourth year.
3. Out of the 44 credits in the fourth year, 32 credits should be from the Major discipline and the additional 12 credits can be earned based on the academic pathway chosen by the student in the first three years. Clauses from 4 to 7 below consist of the different ways of

acquiring the 32 credits in the Major discipline in the fourth year. Clauses from 8 to 14 below consist of the different ways of acquiring the additional 12 credits (other than the 32 credits in the Major discipline) in the fourth year.

4. In semester VII, he/she should earn 20 credits in the Major discipline from 5 core courses of PG-level / level 400 and above.
5. In the case of UG Degree (Honours), in semester VIII, he/she should earn 12 credits either from 3 Major core courses of level 400 and above or from one Major core course and an optional Project of 12 credits in the Major/ allied discipline.
6. In the case of a student in UG Degree (Honours), who goes to another institution for doing the Project in semester VIII, he/she can choose to do one Major core course (mandatory for the 12 credits in Major discipline in semester VIII) as online course from the collection approved by the BoS in the discipline. Such a student can also choose to do this Major course in the in-person mode at the institution where he/she is doing the Project, if institution permits it.
7. In the case of UG Degree (Honours with Research), in semester VIII, the student should earn 12 credits from a mandatory Research Project in the Major/ allied discipline, guided by a faculty member with Ph.D., at a recognized research centre of the University / any other university / higher educational institution or at a centre prior-approved by the University.
8. In the case of Major with Minor pathway and Major with Vocational Minor pathway, the additional 12 credits in the fourth year can be from 3 courses in the Minor discipline of level 300 and above or level 400 and above.
9. If the student continues in the fourth year the Minor / Vocational Minor pathway followed in the first three years, he/she needs a minimum of additional 8 credits in the Minor / Vocational Minor discipline in the fourth year. The remaining 4 credits out of 12 can be in Major or Minor or any other discipline.
10. In the case of the other three academic pathways, the additional 12 credits can be from 3 elective courses of level 400 and above in the Major discipline or 3 courses of level 400 and above in any other discipline.
11. The student can choose to do two of the three courses (for the additional 12 credits) as online courses from the collection approved by the BoS in the discipline.
12. In the case of a student in UG Degree (Honours) or UG Degree (Honours with Research), who goes to another institution for doing the Project in semester VIII, he/she can choose to do all the three courses (for the additional 12 credits) as online courses from the collection approved by the BoS in the discipline. Such a student can also choose to do some or all the three courses in the in-person mode at the institution where he/she is doing the Project, if the institution permits it.
13. In the case of UG (Honours with Research) programme, one of the three courses (for the additional 12 credits) should be in research methodology.
14. The students have the option to take two online courses in the fourth year, including the course on research methodology, either in semester VII or in semester VIII, but their credits shall be added to the student's account only in semester VIII.
15. The distribution of credits in the fourth year of CUFYUGP is as given in Table-4:

Table-4: Discipline-Specific Courses in the Fourth Year of CUFYUGP

Semester	Nature of the Discipline-Specific Course	No. of Courses	Required Credits
VII	Five PG level courses (level 400 & above) in the Major discipline	5	20
VIII	(i) Three PG level courses (level 400 & above) in the Major discipline (for Honours); or (ii) One Major course of level 400 & above + One 8-credit Project in the Major discipline (for Honours); or (iii) One 12-credit Research Project in the Major discipline (for Honours with Research) (iv) In the case of Honours students who go to another institution for doing the Project, the remaining Major course can be in the online mode or in the in-person mode from the institution where the Project is being done.	3	12
	(i) Three Minor Pathway Courses of level 300 & above / level 400 & above; or (ii) Three courses in Major discipline of level 400 & above; or (iii) Two courses in Minor discipline + One course in Major / any other discipline; or (iv) Three courses in any other discipline of level 300 & above / level 400 & above; or (v) Two courses in Major / Minor / any other discipline + One course in research methodology (vi) Two of these courses can be in the online mode. These online courses can be taken either in semester VII or in Semester VIII, but their credits shall be added to the student's account only in semester VIII (vii) For those students who go to another institution for doing the Project, all these three courses can be in the online mode or in the in-person mode from the institution where the Project is being done.	3	12

CREDIT REQUIREMENTS OF PROGRAMME PATHWAYS

1. In CUFYUGP there are five possible combinations of discipline-specific courses, called *academic pathways or programme pathways*.
2. Students who have joined for any programme under CUFYUGP regulations shall have the option to choose the following pathways for their degree and Honours programme.

(A) Single Major Pathway

1. This pathway may be recommended to those students who opt for an in-depth study in a particular discipline, without systematically exploring any other discipline.
2. The students pursuing CUFYUGP in a specific discipline shall be awarded a UG Degree in a Major discipline if they secure minimum 50% of the total credits of 133 required for the three- year programme. That is, minimum 68 credits in that Major discipline from 17 discipline-specific courses in the first three years.
3. Out of the remaining 26 credits required from discipline-specific courses in the first three years, the 2 credits from Internship should be in the Major discipline.
4. Out of the remaining 26 credits required from discipline-specific courses in the first three years, the 24 credits from 6 discipline-specific courses can be in different disciplines other than the Major discipline.
5. If the students continue to the fourth year of CUFYUGP, to be eligible for a UG Degree (Honours) in the Major discipline, they should earn a further 32 credits in that Major discipline from PG level courses or project, and an additional 12 credits from any disciplines.

(B) Major with Multiple Disciplines Pathway

1. This pathway may be recommended for students who wish to develop core competency in multiple disciplines of study. In this case, the credits for the minor pathway shall be distributed among the constituent disciplines/subjects.
2. If students pursuing CUFYUGP are awarded a UG Degree in a Major discipline, they are eligible to get mentioned their core competencies in other disciplines of their choice if they have earned 12 credits each from pathway courses of two disciplines.
3. In the first three years of CUFYUGP, this pathway is composed of one Major discipline with 68 credits from 17 courses, and two other disciplines, with 12 credits from 3 courses in each discipline.
4. In this pathway, if the students choose one of the two disciplines for 12 credits as the same Major discipline, then they should choose a different discipline for the other 12 credits.
5. If the students continue to the fourth year of CUFYUGP, the details of the credits in the Major discipline in the fourth year are the same as given for the Single Major Pathway. In the fourth year, the students need to earn an additional 12 credits from any disciplines. These 12 credits can be in the form of three discipline-specific courses in any one discipline, in which case this third discipline will be added to the multiple disciplines of this pathway.

(C) Major with Minor Pathway

1. This pathway may be recommended to those students who wish for an in-depth study in more than one discipline with a more focus on one discipline (Major) and relatively less focus on the other (Minor). The concept of Minor is relevant only when there is a Major discipline.
2. If students exit at the end of the third year of CUFYUGP, they are awarded a Major Degree in a particular discipline. They are also eligible to be awarded a Minor in another discipline of their choice, if they earn a minimum of 24 credits through 6 discipline-specific pathway courses in the Minor discipline.
3. If the students continue to the fourth year of CUFYUGP, they should earn a minimum of 32 credits in the Minor discipline, to be eligible for a UG Degree (Honours) with a Major and a Minor. For this, in the fourth year, they should earn an additional minimum of 8 credits through 2 courses in the Minor discipline. The details of the credits in the Major discipline are the same as given for the Single Major Pathway.

(D) Major with Vocational Minor Pathway

1. This pathway may be recommended to those students who wish for an exposure in a vocational discipline in addition to the in-depth study in the Major discipline.
2. The credit requirements for Major and vocational Minor disciplines in this pathway are the same as those for Major with Minor pathway, except that the Minor courses are in a vocational discipline. The details of the credits in the Major discipline are the same as given for the Single Major Pathway.

(E) Double Major Pathway

1. This pathway may be recommended to those students who wish for an in-depth study in two disciplines to equal extent.
2. It is composed of two Major disciplines with minimum 50% credits in one Major (A) and minimum 40% credits in another Major (B) out of the total credits. In the three- year UG programme, the student should earn minimum 68 credits in Major A and 53 credits in Major B out of the total credits of 133 to qualify for a UG degree with a Double Major.

3. To secure the required minimum credits in each discipline, students who wish to opt for a Double Major should include the credits earned by them from the Multi- Disciplinary Courses, Skill Enhancement Courses and Value-Added Courses offered by the respective double-Major disciplines, in the proportion shown in Table-6 and Table-7 below and Table-9 in Section 9.
4. The Double Major pathway is not extended to the fourth year.
5. In the fourth year, the student can continue to earn the required credits in either Major A or Major B to qualify for a UG Degree (Honours) / UG Degree (Honours with Research) in A or B.
6. If he/she opts to continue with Major B in the fourth year, he/she should earn an additional 15 credits of 300-399 level in B through in-person or online courses.
7. For the existing Dual Core/ Double Main programmes, the Double Major pathway can be the recommended pathway with flexibility to choose any other pathway.
8. For the Core with Two Complimentary programmes, Major with Multiple Disciplines pathway can be the recommended pathway with flexibility to choose any other pathway.

DISTRIBUTION OF COURSES IN DIFFERENT SEMESTERS

The distribution of discipline-specific courses and general foundation courses to be attended by the students in Semesters I – VI is given in Table-8 for the first four academic pathways, and in Table-9 for the Double Major pathway. The distribution of Major and Minor courses offered by the same department in semesters I – VI is given in Table-10. The distribution of Major and Minor courses in the fourth year of CUFYUGP is given in Table-11.

In both Major courses and in general foundation courses, the courses separated by a vertical line represent courses separately taken in the same semester for two different batches of students in the Double Major programme. The asterisk (*) represents an Elective course.

In the case of Major courses, except in semester IV, one Major course in each semester should be separately taken for the two batches.

Total 14 Major courses (12 core courses and 2 elective courses) should be taken by each Major department involved in the Double Major programme. Out of the 14 Major courses needed from each discipline in the Double Major programme, 12 are the Major courses designed for the other four pathways. Only one additional course is needed and it can be taught in both the first semester (for batch **A1** or **B1**) and the second semester (for batch **A2** or **B2**). So, only 13 Major courses need to be identified for the Double Major programme and one course can be repeated in the first and second semesters.

The first course of MDC and VAC, and the third course of SEC are separately taken by the two Major disciplines A and B for A1 and B1 batches in the class. For MDC and VAC, the second course is by the Major discipline A for all the students, and the third course is by the Major discipline B for all the students. For SEC, the first course is by the Major discipline A for all the students, and the second course is by the Major discipline B for all the students. Each of the two batches in the class will have the set of three courses, (**A1, A1 & B2**) and (**B1, A2 & B1**), the order of the courses being different for SEC. Each Major discipline involved needs to take only two classes in MDC, VAC and SEC in the case of the Double Major Programme.

OUTCOME-BASED EDUCATION (OBE)

1. The regulation adopts outcome-based education (OBE), an educational approach that emphasizes achieving clearly defined learning outcomes for students. It focuses on what students can do by the end of a learning experience, rather than just the content they have been exposed to. Each academic programme shall develop and implement a comprehensive OBE plan that includes the Programme Outcomes, Programme-Specific Outcomes and Course Outcomes.
2. Faculty members shall be responsible for aligning Course Outcomes with Program Outcomes and Programme Specific Outcomes, using effective teaching methods and assessment practices to help students achieve the learning outcomes, participating in continuous improvement efforts related to OBE, and overseeing the assessment of student learning outcomes.
3. The Department Council shall ensure that the University's OBE policy is implemented effectively. It shall review the OBE plans periodically to ensure their effectiveness, with feedback from faculty, staff, students, and alumni.

COURSE CODE

Each course shall have a unique alphanumeric code number, with the following components:

- Abbreviation of the subject in three letters (SOC)
- The semester number in which the course is offered (1 to 8)
- Abbreviation of the category of the course in two letters (CJ, EJ, MN, VN, FA etc.)

- The academic level and serial number of the course in three digits (101, 206 etc.)

EJ	ELECTIVE IN MAJOR	FS	SKILL ENHANCEMENT COURSE
MN	MINOR	FV	VALUE ADDED COURSE
VN	VOCATIONAL MINOR	FM	MULTI-DISCIPLINARY COURSE

The codes of General Foundation Courses are given in Table 13. In the case of courses reserved for the language disciplines, those offered by English and Malayalam disciplines to the BA stream are given as examples.

ELIGIBILITY FOR ADMISSION AND RESERVATION OF SEATS

1. The eligibility for admissions and reservation of seats for various FYUG Degree Programmes shall be in accordance with the norms /rules made by the Government/ University from time to time.
2. No student shall be eligible for admission to CUFYUG Degree Programmes in any of the disciplines unless he/she has successfully completed the examination conducted by a Board/University at the +2 level of schooling or its equivalent.
3. The college shall make available to all students admitted a prospectus listing all the courses offered in various departments during a particular semester. The information so provided shall contain title of the courses, the semester in which it is offered and credits for the courses. Detailed syllabi shall be made available in the University/ college websites.

4. There shall be a uniform calendar prepared by the University for the registration, conduct/ schedule of the courses, examinations, and publication of results. The University shall ensure that the calendar is strictly followed.
5. Students shall be admitted to UG programmes under Faculty of Science, Humanities, Language and Literature, Commerce and Management, Fine Arts, Journalism, and such other faculty constituted by the University from time to time.
6. Students shall be admitted and enrolled in the respective programmes solely based on the availability of the academic and infrastructural facilities within the institution. The college shall provide a brochure to all students detailing the courses offered by the various departments under the various Programmes and the number of seats sanctioned by the University for each Programme.
7. During the time of admission each student shall be provided with a unique Higher education student ID which may be advised to link with the Aadhar number of the student so that this ID can be transferred if required to other higher education institutions as well.
8. The upper limit to the number of students that can be allocated to a Minor course shall be decided by the college, based on the availability of infrastructure and other academic facilities.
9. The colleges can also enroll students who are already registered for a particular programme in another college, in certain courses as per their choice, depending upon the availability of infrastructure and other academic facilities. This enrolment shall be through regular mode irrespective of the nature of programme (aided/ self-finance/ autonomous). On successful completion of the course, the credits may be transferred through the Academic Bank of Credit or it may be communicated to the University against the unique ID provided by the University at the time of admission. This facility is restricted to one course per semester, and to a maximum of four courses of total 16 credits in the four-year programme.
10. In the case of the students of UG Degree (Honours), who go to another college/ university/ higher education institution for their Project in the eighth semester, along with doing their Project, they can enroll for maximum four courses offered by that institution, provided it is permitted by that institution, to earn 4-credits corresponding to one Major course and 12-credits corresponding to the three additional courses of the eighth semester. In the case of the students of UG Degree (Honours with Research), this facility can be used to earn 12-credits corresponding to the three additional courses of the eighth semester.

COLLEGE TRANSFER

1. There shall be provision for both inter-collegiate and inter-university transfer of the students. Depending upon the availability of seats, and academic and infrastructural facilities, the institution shall admit in each semester, by transfer method from other institutions, a certain number of students who are registered for particular programme, subject to conditions as may be issued by the University.
2. Inter-collegiate transfer shall be permitted only in the 3rd, 4th, 5th and 7th semesters. Inter-university transfer shall be permitted only in the 3rd, 5th and 7th semesters.
3. College transfer shall be permitted only once in the entire programme.
4. College transfer with switching in Major and Minor courses, and the academic pathway, is permitted only in the 3rd semester.
5. The transfer shall be within a period of two weeks from the date of commencement of the semester.

READMISSION AND SCHEME MIGRATION

1. Students are permitted to discontinue the programme and take readmission, but the total duration for completing the programme shall not exceed six years for the three-year programme and eight years for the four-year programme. If not, such candidate has to cancel the existing registration and join afresh as a new candidate.
2. Students who discontinued from the previous CBCSS scheme can resume their studies under the new regulations upon obtaining readmission, and such students should complete their programme as per the new regulations.
3. The principal can grant readmission to the student, subject to the conditions detailed below, and inform the matter of readmission to the Controller of Examinations within one month of such readmission.
4. Readmission is permitted only once in the entire programme.
5. There should be a gap of at least one semester for readmission.
6. The candidate seeking readmission to a particular semester should have registered for the previous semester examination.
7. The readmission sought to the parent institution shall be permitted without considering the availability of seats in the particular programme. This is permitted from 2nd semester onwards.
8. Readmission to a different institution (other than the parent institution) is permitted depending upon the availability of vacant seats. This can be considered as readmission with college transfer, and it is permitted in 3rd, 4th and 5th semesters only.
9. Readmission shall be taken within two weeks from the date of commencement of the semester concerned.
10. If change in scheme occurs during readmission, provision for credit transfer is subject to common guidelines prepared by Boards of Studies concerned. For readmission to CUFYUGP 2024 involving scheme change, the principal concerned shall report the matter of readmission to Controller of Examinations within two weeks, with the details of previous semesters and courses undergone with credits, to fix the deficiency in courses and credits.
11. Assessment of the transitory courses/ additional courses to be done by the student, as per the academic requirement of the University, shall be conducted by the Boards of Studies of the disciplines concerned.
12. Students who discontinue the programme before the completion of the third year, shall be provided with a 'Courses cum Credits Certificate' as a proof for re-entry to another institution, and this certificate is essential for preserving the credits in the Academic Bank of Credits.

COURSE REGISTRATION

1. The admission procedure in the CUFYUGP is the same as in the existing UG programme, and the student is admitted to a particular Major discipline.
2. Students shall be allowed to visit and interact with respective faculty members during the first week of each semester, to gather more information about the courses and the availability of seats.
3. Based on consultations and advice from the faculty adviser, each student shall complete course registration using the prescribed registration form within two weeks from the commencement of each semester. The student shall choose an academic pathway and the courses other than the Major courses to be enrolled in the first semester.
4. The minimum number of credits that a student can take in a semester is as given in Table-8, Table-9 and Table-11, and the maximum number of credits is 30.

5. The college shall send a list of students registered for each programme in each semester giving the details of courses registered to the University in the prescribed form within 45 days from the commencement of the semester.
6. It is mandatory for the students to register for the examinations of the concerned semesters in the same year itself.
7. A student shall be normally permitted to register for the examination if he/she has the required minimum of 75% attendance. If the registration for examination is not possible owing to shortage of attendance beyond condonation limit in a semester, then the student shall be permitted to move to the next semester with Provisional Registration, provided the attendance is equal to or greater than 50%. Such a student can write the examination for the entire courses of the semester, in which shortage of attendance occurs, as supplementary examination only after the completion of the entire programme. In such cases, a request from the student may be forwarded through the principal of the college to the Controller of Examinations within two weeks of the commencement of the semester. If the attendance is less than 50%, the student is ineligible to continue the programme and must seek readmission.
8. The students who have attendance within the limit prescribed, but could not register for the examination, must apply for token registration, within two weeks of the commencement of the next semester.

COURSE PARTICIPATION AND ATTENDANCE

1. Students acquire knowledge and understand course materials by way of classroom participation. But due to exceptional circumstances, students may occasionally be unable to attend classes.
2. Absence from classes due to valid reasons shall be treated as authorized absence and appropriate chances for make-up shall be provided to ensure timely completion of the course.
3. The authorized absence includes absence due to participation in meetings or events organized by the college or the University, or in a regularly scheduled curricular or extracurricular activity prescribed by the college or the University, and absence due to unavoidable or other legitimate circumstances such as illness, injury, family emergency, care-related responsibilities, severe weather conditions, academic or career-related interviews etc. Apart from this, all other eligible leaves such as maternity leave, and menstrual leave shall also be treated as authorized absences.
4. Participation in such activities shall be treated as presence in lieu of their absence on production of participation/ attendance certificate (within two weeks) in curricular/extracurricular activities (maximum 9 days in a semester). The attendance shall be calculated by considering the period of participation/ authorized absence by the students as duty.
5. In all these cases, students should inform the faculty concerned in advance, where ever possible, and discuss the implications of the absence. Missing class, even for a legitimate purpose in certain cases, the student may not be able to make up the missed work completely, resulting in a negative impact on the student's grade. Students should be prepared to furnish proper documentation to justify their absence from the class.
6. In such situations, the faculty should offer guidance on making such suitable plans that the student can complete in advance or immediately upon returning. It is essential to recognize that not all missed work can be made up, and absences may ultimately affect a student's performance in the course
7. The faculty shall advise students to access the classes online or in blended mode and use simulation-based Labs such as virtual labs to make up the pending works.

8. A student shall be permitted to appear for the end-semester examination of a specific course to acquire the credits only if he/she has minimum 75% attendance (has completed minimum 75% of the prescribed classroom activities in physical, online, or blended modes, including any compensating activities as specified by the faculty of that course).
9. Records for class participation shall be maintained by the concerned faculty.
10. Condonation of shortage of attendance to a maximum of 10% in the case of single condonation and 20% in the case of double condonation in a semester shall be granted by the University on the remittance of the required fee by the candidate.
11. Students can avail condonation of shortage of attendance in a maximum of four semesters during the entire programme (Either four single condonations or one double condonation and two single condonations during the entire programme).
12. If a student fails to get the required attendance within condonable limit, he/she can move to the next semester only if he/she acquires 50% attendance. In that case, a provisional registration is needed.
13. Such a student can write the examination for the entire courses of the semester, in which shortage of attendance occurs, as supplementary examination only after the completion of the entire programme.
14. If the attendance is less than 50%, the student is ineligible to continue the programme and must seek readmission.

SWITCHING OF MAJOR, MINOR AND THE PATHWAY

1. At the end of second semester, students are permitted to switch their Major discipline, Minor discipline, and their academic pathway. Based on the availability of seats and infrastructure facilities, the students are permitted to opt any discipline in which they have completed one course and earned 4 credits during the first two semesters as discipline specific foundation course (Major /Minor).
2. Students in the four academic pathways, Single Major, Major with Multiple disciplines, Major with Minor and Major with Vocational Minor, can switch their Major to one of the Minor disciplines in which they have attended minimum one course and earned minimum 4 credits in the first two semesters.
3. Students in the Double Major pathway can switch to one of the other four pathways by retaining one of the two Major disciplines they have studied. The second Major discipline they have studied can be redefined as
 - a. Minor in the *Major with Minor pathway* or *Major with Vocational Minor pathway*;
 - b. Minor as one of the two disciplines in the *Major with Multiple Discipline pathway*;
 - c. Minor as a discipline in which three courses are taken in the *Single Major pathway*.
4. When a student switches the Major to one of the disciplines in which he/she has earned minimum 4 credits, the credits earned shall be transferred to the total credits required for the new Major.
5. To accommodate the students who switch to a new Major programme, additional seats are created, depending upon the academic and infrastructural facilities available in the institution. The maximum number of these additional seats shall be 10% of the sum of the sanctioned strength and the marginal increase of the newly chosen Major programme. In addition, unfilled or vacant seats after the close of admission, if any, may be filled with those seeking a switching of the Major discipline. After the switching of Major to a particular discipline, the total number of students in that discipline should remain within the statutory limit.

6. In the case of switching of Major, the rank list of the applicants shall be prepared by the colleges, based on the following criteria:
7. The ranking shall be in the order of the highest marks secured in the discipline to which the switching of Major is sought (Minor discipline, in the case of the first four pathways; one of the two Major disciplines, in the case of the Double Major pathway), by considering the total marks scored in the first and second semesters together.
8. In the case of a tie in the ranking, the highest total marks scored in the external examination of first and second semesters, in the discipline to which the switching is sought, shall be fixed as the first criterion to break the tie.
9. If the tie in the ranking continues beyond this stage, the sum of the SGPA secured in the first and second semesters shall be fixed as the second criterion to break the tie.
10. Switching the Major is permitted within the college, between two colleges within the University, and between two universities in the state.
11. The procedure for the switching of Major, Minor and the academic pathway shall be completed within a period of two weeks from the date of commencement of the third semester.
12. The change of Major discipline through the switching between Major and other discipline specific courses (Major / Minor) is permitted only at the end of the second semester.

ACADEMIC MONITORING AND STUDENT SUPPORT

1. Regular Advisory meetings shall be convened in the department immediately after the commencement of the semester and immediately after announcing the marks of the internal evaluation test.
2. The internal marks, classroom presence/participation, etc. shall be uploaded on the University portal only after displaying the same on the department notice board at least for two working days.
3. Any concern raised by the students regarding attendance and internal marks shall be looked into in the combined meetings of faculty advisor, course faculty, department coordinator of CUFYUGP and the students concerned.
4. If the concerns are not resolved at the advisor's level, the same can be referred to the departmental/ college-level Grievance Redressal Committee, constituted as per the existing UGC/ University/ Government norms.
5. The Principal/ HOD shall ensure the proper redressal of the concerns raised by the students regarding internal assessment and attendance.
6. If the students raise further concerns about the issue, the principal shall refer the same to the University-level Grievance Redressal Committee with proper documents and minutes of all the committees.
7. The faculty in-charge of the class shall be the custodian of the minutes and reports of the advisory meetings.
8. It shall be the duty of the Head of the Department and the Principal to present the minutes and reports before the University as and when required.
9. The college shall form a Grievance Redressal Committee in each department in accordance with the directives of UGC/ University/ Government from time to time. This committee shall address all grievances relating to the internal assessment grades of the students.
10. There shall be a college-level Grievance Redressal Committee formed in accordance with the directives of UGC/ University/ Government from time to time.
11. The University shall form a Grievance Redressal Committee as per the existing norms.
12. The University shall establish a digital storage (DIGILOCKER) of academic credits for the credit transfer and accumulation in line with Academic Bank of Credit (ABC) facility provided by the University Grants Commission.

13. The validity of credits earned shall be for a maximum period of eight years or as specified in the University/ UGC regulations.

ASSESSMENT AND EVALUATION

1. A 4-credit course will be evaluated for 100 marks and a 3-credit course for 75 marks.
2. The assessment shall be a combination of continuous comprehensive assessment and an end-semester evaluation.
3. Continuous comprehensive assessment will have two sub-components: Formative assessment and Summative Assessment. The course-faculty can choose any combination of assessment methods listed below in both categories.
4. Formative Assessment: Formative assessment refers to a wide variety of methods that teachers use to conduct in-process evaluations of student comprehension, learning needs, and academic progress during a lesson, unit, or course. It is to encourage students to build on their strengths rather than fixate or dwell on their deficits. Formative Assessment can help clarify and calibrate learning expectations for both students and parents. It will help students become more aware of their learning needs, strengths, and interests so they can take greater responsibility over their own educational growth. Formative assessment will be prerogative of the course coordinator based on specific requirement of the student. Suggestive methods of formative assessment are as follows:
 - (i) Practical Assignment, (ii) Observation of practical skills, (iii) Viva voce, (iv) Quiz, (v) Interview, (vi) Oral presentations, (vii) Computerized adaptive testing, (viii) In-class discussions, (ix) Instructor-created exams, (x) Seminar presentations, (xi) Clicker question (xii) Low-stakes group work, (xiii) Group Tutorial work, (xiv) One-minute reflection writing assignments, (xv) Home assignments, (xvi) Self and peer Assessments, (xvii) Any other method as may be required for specific course / student as implemented by the instructor.
5. Summative Assessment: Summative assessments are used to evaluate student learning, skill acquisition, and academic achievement at the conclusion of a defined instructional period— typically at the end of a project, unit, course, or semester. Summative assessments may be a class tests, assignments, or project, used to determine whether students have learned what they were expected to learn. The systematically collected evidences should be kept in record by course faculty and the marks should be displayed on the college notice board before the end semester examinations. The method of evaluation/ assessment may be as follows:
 - (i) Written test, (ii) Open book test, (iii) Literature survey (iv) Problem based assignments, (v) Individual project report, (vi) Case study report, (vii) Team project report, (viii) Standardized Test, (ix) Any other pedagogic approach specifically designed for a particular course by the instructor.
6. 6.30% weightage shall be given for continuous comprehensive assessment. The remaining 70% weight shall be for the end-semester evaluation.
7. In the case of a 4-credit course with only theory component, the evaluation will be in 100 marks, out of which 30 marks will be by continuous/internal evaluation and 70 marks will be by external evaluation.
8. In the case of a 3-credit course with only theory component, the evaluation will be in 75 marks, out of which 25 marks will be by continuous/internal evaluation and 50 marks will be by external evaluation.
9. In the case of a 4-credit course with only theory component and with five modules, out of the 30 marks by continuous/internal evaluation, 10 marks will be for the open-ended

- module and 20 marks will be for the other four modules. The 70 marks of the external evaluation will be based on the four modules other than the open-ended module.
10. In the case of a 3-credit course with only theory component and with five modules, out of the 25 marks by continuous/internal evaluation, 5 marks will be for the open-ended module and 20 marks will be for the other four modules. The 50 marks of the external evaluation will be based on the four modules other than the open-ended module.
 11. In the case of a 4-credit course with 3 credits for theory component and 1 credit for practical / practicum component, there can be four modules based on theory and one module on practical component. Out of the total evaluation of 100 marks, 20 marks will be for the practical / practicum component and it will be based on continuous/internal evaluation, and an end-semester examination and viva by internally appointed teachers of the Department Council. The 20 marks of the practical component will be considered as part of the internal evaluation. Out of the remaining 80 marks for the theory component, 10 marks will be by continuous/internal evaluation and 70 marks will be by external evaluation.
 12. In the case of a 3-credit course with 2 credits for theory component and 1 credit for practical / practicum component, there can be four modules based on theory and one module on practical component. Out of the total evaluation of 75 marks, 15 marks will be for the practical / practicum component and it will be based on continuous/internal evaluation, and an end-semester examination and viva by internally appointed teachers of the Department Council. The 15 marks of the practical component will be considered as part of the internal evaluation. Out of the remaining 60 marks for the theory component, 10 marks will be by continuous/internal evaluation and 50 marks will be by external evaluation.
 13. In semesters I, III, V and VII, the colleges shall conduct the end-semester examination of all the courses, and they shall also conduct the evaluation of the answer sheets of these courses under the supervision of the University. In semesters II, IV, VI and VIII, the University shall conduct the end-semester examination of all the courses, with the question papers from the question bank prepared by the Boards of Studies in the respective disciplines, and shall also conduct the centralised evaluation for these courses.
 14. The general schemes of the question papers for the end-semester examination of the theory part of a course are given in Appendix-I & II.
 15. Question Paper type I is for Major & Minor courses with 4-credits for each course. Scheme of Examinations is as follows: The question paper for the external examination shall be of 70 marks and the internal evaluation shall be of 30 marks. Duration of each external examination is 2 hours. The pattern of external examination is as given in Appendix-I
 16. The students can answer all the questions in Sections A & B, but there shall be ceiling in each of these sections. Only one out of two questions need to be answered in Section C.
 17. Question paper type II is for General Foundation Courses with 3-credits for each course. Scheme of Examinations is the following: The question paper for the external examination shall be of 50 marks and the internal evaluation shall be of 25 marks. Duration of each external examination is 1.5 hours. The pattern of external examination is as given in Appendix-II. The students can answer all the questions in Sections A & B, but there shall be ceiling in each of these sections. Only one out of two questions need to be answered in Section C.

18. If the student has 75% attendance in an Audit Course, he/she is eligible for a pass in that course, with no credit (zero-credit).
19. Each college shall have a Moderation Board/ Committee to moderate the marks awarded to a candidate through continuous internal assessment.
20. The University shall decide the moderation in each semester as per the rules specified by the Academic Council from time to time.
21. To ensure transparency of the evaluation process, the internal assessment marks awarded to the students in each course in a semester shall be notified on the notice board at least one week before the commencement of the end-semester examination or before forwarding the internal assessment marks to the Controller of Examinations, whichever is earlier.
22. There shall not be any chance for improvement for internal marks.
23. The course-teacher(s) shall maintain the academic record of each student registered for the course.
24. The marks awarded in each semester (continuous internal assessment) for both theory and practical shall be forwarded to the Controller of Examinations as and when notified by the university before the commencement of the end-semester examination.
25. The Controller of Examinations shall have the right to call for all the records of continuous evaluation from the teachers concerned and moderate the evaluation if it deems necessary in any specific case(s).
26. Improvement of a particular semester can be done only once.
27. The student shall avail the improvement chance in the succeeding year after the successful completion of the semester concerned.
28. The students can improve a maximum of two courses in a particular semester.
29. The internal marks already obtained will be carried forward to determine the new grade/ marks in the improvement examination.
30. If the candidate fails to appear for the improvement examination after registration, or if there is no change in the results of the improved examination, the grade/ marks obtained in the first appearance will be retained.
31. A student who fails to secure a minimum grade for a pass in a course is permitted to write the supplementary examination along with the next junior batch.
32. Improvement and supplementary examinations cannot be done simultaneously. That is, if a student has failed in one or more courses in a semester, he/she should first appear for the supplementary examinations of these courses and secure a pass. A student shall be eligible to improve any courses in a semester only after the successful completion of all the courses in that semester. The improvement chance should be availed in the succeeding year itself.

REVALUATION

1. If a student applies for revaluation of a course, then the marks on revaluation and the internal marks together shall be reckoned for finalising the revaluation results. Aggregate grade shall be displayed in the revaluation results. The change in the grade obtained on revaluation, will be awarded to the candidate.
2. Students can apply for photocopies of answer scripts of external examinations. Applications for photocopies/ scrutiny/ revaluation should be submitted within 10 days of publication of results. The fee for this shall be as decided by the University.

INTERNAL EVALUATION OF THEORY PART OF A COURSE

Internal Evaluation of theory part of a course shall have the following components:

Table-14: Internal Evaluation of Theory Part of a Course

LETTER GRADES AND GRADE POINTS

1. Mark system is followed for evaluating each question.
2. For each course in the semester letter grade and grade point are introduced in 10- point indirect grading system as per guidelines given below.
3. The Semester Grade Point Average (SGPA) is computed from the grades as a measure of the student's performance in a given semester.
4. The Cumulative GPA (CGPA) is based on the grades in all courses taken after joining the programme of study.
5. Only the weighted grade point based on marks obtained shall be displayed on the grade card issued to the students.

Table-15: Letter Grades and Grade Points

Letter Grade	Grade Point	Percentage of Marks (Internal & External Put Together)	Class
O (Outstanding)	10	95% and above	First Class with Distinction
A+ (Excellent)	9	Above 85% and below 95%	
A (Very good)	8	75% to below 85%	
B+ (Good)	7	65% to below 75%	First Class
B (Above average)	6	55% to below 65%	
C (Average)	5	45% to below 55%	Second Class
P (Pass)	4	35% to below 45% aggregate (internal and external put together) with a minimum of 30% in external valuation	Third Class
F (Fail)	0	Below an aggregate of 35% or below 30% in external evaluation	Fail
Ab (Absent)	0		Fail

6. When students take audit courses, they may be given pass (P) or fail (F) grade without any credits.

7. The successful completion of all the courses and capstone components prescribed for the three-year or four-year programme with 'P' grade shall be the minimum requirement for the award of UG Degree or UG Degree (Honours) or UG Degree (Honours with Research), as the case may be.

COMPUTATION OF SGPA AND CGPA

The following method shall be used to compute the Semester Grade Point Average (SGPA):

The SGPA equals the product of the number of credits (C_i) with the grade points (G_i) scored by a student in each course in a semester, summed over all the courses taken by a student in the semester, and then divided by the total number of credits of all the courses taken by the student in the semester,

$$\text{i.e. SGPA } (S_i) = \frac{\sum_i (C_i \times G_i)}{\sum_i (C_i)}$$

where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course in the given semester.

$$\text{SGPA} = \frac{\text{Sum of the credit points of all the courses in a semester}}{\text{Total credits in that semester}}$$

Table-16: Illustration – Computation of SGPA

Semester	Course	Credit	Letter Grade	Grade point	Credit Point (Credit x Grade)
I	Course 1	3	A	8	3 x 8 = 24
I	Course 2	4	B+	7	4 x 7 = 28
I	Course 3	3	B	6	3 x 6 = 18
I	Course 4	3	O	10	3 x 10 = 30
I	Course 5	3	C	5	3 x 5 = 15
I	Course 6	4	B	6	4 x 6 = 24
	Total	20			139
	SGPA				139/20 = 6.950

The Cumulative Grade Point Average (CGPA) of the student shall be calculated at the end of a programme. The CGPA of a student determines the overall academic level of the student in a programme and is the criterion for ranking the students.

CGPA for the three-year programme in CUFYUGP shall be calculated by the following formula.

$$\text{CGPA} = \frac{\text{Sum of the credit points of all the courses in six semesters}}{\text{Total credits in six semesters (133)}}$$

CGPA for the four-year programme in CUFYUGP shall be calculated by the following formula.

$$\text{CGPA} = \frac{\text{Sum of the credit points of all the courses in eight semesters}}{\text{Total credits in eight semesters (177)}}$$

The SGPA and CGPA shall be rounded off to three decimal points and reported in the transcripts.

Based on the above letter grades, grade points, SGPA and CGPA, the University shall issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

GRADE CARD

The University shall issue by online grade/ marks card to the students on completion of each semester, which shall contain the following information:

- Name of University
- Name of College
- Name and Register Number of the student
- Title of the Programme
- Semester concerned
- Code number, Title and Credits of each Course opted in the semester
- Letter grade in each course in the semester
- The total credits, total credit points and SGPA in the Semester (corrected to three decimal places)

In the case of the students who opt to switch the Major and Minor courses at the end of second semester, the course codes of the discipline-specific courses (Major/ Minor) mentioned in the grade cards issued in the first two semesters shall be provisional. The grade cards thus issued shall be revised on demand with the new course codes. Only the revised course codes shall be given in the final grade card.

The final Grade card issued at the end of the final semester shall contain the details of all courses taken during the entire programme including those taken over and above the prescribed minimum credits for obtaining the degree. The following details will be shown in the final grade card:

- Name of University
- Name of College
- Name and Register Number of the student
- Title of the Programme
- The academic pathway of the student
- Code number, Title, Credits and Grade Point of each Course opted
- The total credits, total credit points and SGPA (corrected to three decimal places) of each semester
- CGPA (corrected to three decimal places), calculated on a 10-point scale.
- Percentage of marks (corrected to two decimal places)
- Overall letter grade of the student for the entire programme.
- CGPA and percentage of marks separately for Major course, Minor courses, Internship, General Foundation Courses and Project (if applicable).
- The elective courses opted by the student.
- Specialisation of the student (if applicable)
- Audit courses passed
- Details of credits earned by the student through online/ additional courses

COMMITTEES FOR THE IMPLEMENTATION AND MONITORING OF CUFYUGP

There Shall be an CUFYUGP Steering Committee at the University-level to ensure the smooth implementation of CUFYUGP 2024 and to resolve the ensuing issues. The CUFYUGP Steering Committee shall include:

- i. the Registrar of the University,
- ii. the Controller of Examinations,
- iii. two Syndicate members of whom one shall be a teacher,
- iv. seven teachers from different disciplines (preferably one from each faculty),
- v. two chairpersons of Boards of Studies (one UG and one PG), and
- vi. two Deans of Faculty as the members,

and the Syndicate member who is also a teacher as the Convenor. The quorum of the committee shall be six and meeting of the committee shall be held at least thrice in an academic year. The resolutions of the committee shall be implemented by the Vice-Chancellor in exigency and this shall be ratified by the Academic Council.

There shall be a CUFYUGP Academic Committee at each of the affiliating college (other than autonomous colleges) to implement and monitor the CUFYUG programmes, which shall be formed within one month from the date of commencement of this regulation. The CUFYUGP Academic Committee shall consist of the Principal as the Chairperson, the Academic Co-ordinator of CUFYUGP as Convenor, and the Department Coordinators from all the departments of the college as members.

TRANSITORY PROVISION

Notwithstanding anything contained in these Regulations, the Vice-Chancellor shall, for a period of three years from the date of coming into force of these Regulations, have the power to provide by order that these regulations shall be applied to any programme with such modifications as may be necessary.

REPEAL

The regulations now in force, in so far as they are applicable to programmes offered by the University and to the extent, they are inconsistent with these regulations, are hereby repealed. In the case of any inconsistency between the existing Regulations and these Regulations relating the Calicut University Four-Year Undergraduate Programme (CUFYUGP), in their application to any course offered in a College, the latter shall prevail.

EVALUATION SCHEME

1. The evaluation scheme for each course contains two parts: internal evaluation (about 30%) and external evaluation (about 70%). Each of the Major and Minor courses is of 4-credits. It is evaluated for 100 marks, out of which 30 marks is from internal evaluation and 70 marks, from external evaluation. Each of the General Foundation course is of 3-credits. It is evaluated

for 75 marks, out of which 25 marks is from internal evaluation and 50 marks, from external evaluation.

2. In 4-credit courses with only theory component, out of the total 5 modules of the syllabus, one open-ended module with 20% content is designed by the faculty member teaching that course, and it is internally evaluated for 10 marks. The internal evaluation of the remaining 4 theory modules is for 20 marks.

3. All the 3-credit courses (General Foundational Courses) in Sociology are with only theory component. Out of the total 5 modules of the syllabus, one open-ended module with 20% content is designed by the faculty member teaching that course, and it is internally evaluated for 5 marks. The internal evaluation of the remaining 4 theory modules is for 20 marks.

4. Students can write the external exams in Sociology either in English or in Malayalam.

2. INTERNSHIP

- All students should undergo Internship of 2-credits during the first six semesters a firm, industry, or organization, with faculty and researchers of their own institution or other Higher Educational Institutions (HEIs) or research institutions. Students can do internships with local industries, business organizations, agriculture, health and allied sectors, Local Government institutions (such as panchayats, municipalities), State Planning Board, State Councils/ Boards, elected representatives to the parliament/ state assembly/ panchayath, media organizations, artists, crafts persons NGOs etc.
- Internship can be for enhancing the employability of the student or for developing the research aptitude.
- Internship can involve hands-on training on a particular area or can be a short project on a specific problem or area. Attending seminars or workshops related to an area of learning or skill can be a component of Internship.
- A faculty member/ scientist/ instructor of the respective institution, where the student does the Internship, should be the supervisor of the Internship.

2.1. GUIDELINES FOR INTERNSHIP

1. Internship can be in Sociology or allied disciplines.
2. There should be minimum 60 hours of engagement from the student in the Internship.
3. The students may continue their internship subject to the condition that the academic credits do not get affected in terms of attendance and other assignments. Summer or winter vacations and other holidays can be used for completing the Internship.
4. In B.A. Sociology Honours programme, students can do internship in any HEIs/research organisations/registered industries/organisations/ companies/ NGOs/ local self-governing bodies/ Organisations under State Government/Central Government etc. Students can also undertake internship from national/international/reputed institutions through online mode.
5. An internship coordinator (Faculty from the department) will be nominated at the beginning of the academic year by the Department Council (DC) for monitoring and supervising the student during the internship.
6. Internship Supervisor from the host institute/organisation should monitor the regularity and performance of the student. On the completion of internship, the student should submit the project report in the prescribed format along with internship completion certificate issued by Internship Supervisor/authority from host organisation. The project report shall be evaluated by faculty member nominated by the department council.
7. The students should make regular and detailed entries in to a personal log book through the period of Internship. The log book will be a record of the progress of the Internship and the time spent on the work, and it will be useful in writing the final report. All entries should be dated. The Internship supervisor should periodically examine and countersign the log book.
8. The log book and the typed report must be submitted at the end of the Internship.
9. The Internship certificate should be certified by the Head of the Institution. It should contain the Name of the Student, Name of the Internship course, Name of the Institute, Type of work done and duration of work (60 hours).
10. Internship Report (Typed and Binded) detailing the Title of the Internship, Name and Register Number of the Student, Year, Name of the institute, Name of the college and department. Declaration, Certificate signed by the Head of the Internship Institution,

Introduction, Details of the work done, Method adopted, Outcome of the work, Limitations, Suggestions should be prepared and submitted to the Head of the Department before the completion of VI Semester.

11. The institution at which the Internship will be carried out should be prior-approved by the Department Council of the college where the student has enrolled for the UG Honours programme.

2.2. EVALUATION OF INTERNSHIP

- The evaluation of Internship shall be done internally through continuous assessment mode by a committee internally constituted by the Department Council of the college where the student has enrolled for the UG Honours programme.
- The credits and marks for the Internship will be awarded only at the end of semester 6.
- The scheme of continuous evaluation and the end-semester viva-voce examination based on the submitted report shall be as given below:

Sl. No.	Components of Evaluation of Internship	Marks for Internship 2 Credits	Weightage
1	Continuous evaluation of internship through interim presentations and reports by the committee internally constituted by the Department Council	Acquisition of skill set	40%
2		Interim Presentation and Viva-voce	
3		Punctuality and Log Book	
4	Report of Institute/ Organisation Visit	5	10%
5	End-semester viva-voce examination to be conducted by the committee internally constituted by the Department Council	Quality of the work	35%
6		Presentation of the work	
7		Viva-voce	
8	Evaluation of the day-to-day records, the report of internship supervisor, and final report submitted for the end semester viva-voce examination before the committee internally constituted by the Department Council	8	15%
	Total Marks	50	

2.3 STUDY TOUR

A compulsory study tour (of maximum 4 days) is recommended as part of the Course entitled "Gender and Society" in the Fifth Semester and the tour report should be submitted.

Visit to minimum one national research institute and organisations/ places of social importance should be part of the study tour. A brief report of the study tour must be submitted with photos to the Head of the Department soon after the tour.

3. PROJECT

3.1. PROJECT IN HONOURS PROGRAMME

- In Honours programme, the student has the option to do a Project of 12-credits instead of three Core Courses in Major in Semester 8.

- The Project can be done in the same institution or any other higher educational institution (HEI) or Research Centre or Training Centre.
- The Project in Honours programme can be a short research work or an extended internship or a skill-based training programme.
- A faculty member of the respective institution, where the student does the Project, should be the supervisor of the Project.

3.2. PROJECT IN HONOURS WITH RESEARCH PROGRAMME

- Students who secure 75% marks and above (equivalently, CGPA 7.5 and above) cumulatively in the first six semesters are eligible to get selected to Honours with Research stream in the fourth year.
- A relaxation of 5% in marks (equivalently, a relaxation of 0.5 grade in CGPA) is allowed for those belonging to SC/ ST/ OBC (non-creamy layer)/ Differently-Abled/ Economically Weaker Section (EWS)/ other categories of candidates as per the decision of the UGC from time to time.
- In Honours with Research programme, the student must do a mandatory Research Project of 12-credits instead of three Core Courses in Major in Semester 8.
- The approved research centres of University of Calicut or any other university/ HEI can offer the Honours with Research programme. The departments in the affiliated colleges under University of Calicut, which are not the approved research centres of the University, should get prior approval from the University to offer the Honours with Research programme. Such departments should have minimum two faculty member with Ph.D., and they should also have the necessary infrastructure to offer Honours with Research programme.
- A faculty member of the University/ College with a Ph.D. degree can supervise the research project of the students who have enrolled for Honours with Research. One such faculty member can supervise maximum five students in Honours with Research stream.
- The maximum intake of the Department for Honours with Research programme is fixed by the department based on the number of faculty members eligible for project supervision, and other academic, research, and infrastructural facilities available.
- If a greater number of eligible students are opting for the Honours with Research programme than the number of available seats, then the allotment shall be based on the existing rules of reservations and merits.

3.3. GUIDELINES FOR THE PROJECT IN HONOURS PROGRAMME AND HONOURS WITH RESEARCH PROGRAMME

1. Project can be done in topics related to Sociology.
2. Project should be done individually.
3. Project work can be based on primary and secondary sources of data and applying qualitative, quantitative, or mixed methods.
4. There should be minimum 360 hours of engagement from the student in the Project work in Honours Programme and Honours with Research programme.
5. There should be minimum 12 hours/week of engagement (the hours corresponding to the three core courses in Major in Semester VIII from the teacher in the guidance of the Project(s) in Honours programme and Honours with Research programme.

6. The various steps in project works are the following:
 - Wide review of a topic.
 - Investigation on a problem, data collection, analysis in systematic way using appropriate techniques.
 - Systematic recording of the work.
 - Reporting the results with interpretation in a standard documented form.
 - Presenting the results before the examiners.
7. During the Project the students should make regular and detailed entries in to a personal log book through the period of investigation. The log book will be a record of the progress of the Project and the time spent on the work, and it will be useful in writing the final report. It may contain review of literature, the problem, data collection, analysis, appropriate techniques used etc. All entries should be dated. The Project supervisor should periodically examine and countersign the log book.
8. The log book and the typed report must be submitted at the end of the Project. A copy of the report should be kept for reference at the department. A soft copy of the report too should be submitted, to be sent to the external examiner in advance.
9. Report of the Project should contain
 - a) Cover Page and Front Page with Title of the project, Degree for which project is submitted. Student's name, Register Number, Name of the College, Month, and year of project report submission
 - b) Declaration by the student, Certificate from supervising teacher forwarded by head of the department. , Acknowledgement. , Contents , List of Tables ,Figures, Bibliography Appendix
 - c) Introduction Chapter, Methodology, Analysis Chapters, Findings, Conclusion and, Bibliography, Appendix
10. It is desirable, but not mandatory, to publish the results of the Project in a peer reviewed journal.
11. The project report shall have an undertaking from the student and a certificate from the research supervisor for originality of the work, stating that there is no plagiarism, and that the work has not been submitted for the award of any other degree/ diploma in the same institution or any other institution.
12. The project proposal, institution at which the project is being carried out, and the project supervisor should be prior-approved by the Department Council of the college where the student has enrolled for the UG Honours programme.

3.4. EVALUATION OF PROJECT

- The evaluation of Project will be conducted at the end of the eighth semester by both internal and external modes.
- The Project in Honours programme as well as that in Honours with Research programme will be evaluated for 300 marks. Out of this, 90 marks is from internal evaluation and 210 marks, from external evaluation.
- The internal evaluation of the Project work shall be done through continuous assessment mode by a committee internally constituted by the Department Council of the college where the student has enrolled for the UG Honours programme. 30% of the weightage shall be given through this mode.
- The remaining 70% shall be awarded by the external examiner appointed by the University.

The scheme of continuous evaluation and the end-semester viva-voce of the Project shall be as given below:

Components of Evaluation of Project	Marks for Project (Honours / Honours with Research)	Weightage
Continuous evaluation of project work through interim presentations and reports by the committee internally constituted by the Department Council	90	30%
End-semester viva-voce examination to be conducted by the external examiner appointed by the university	150	50%
Evaluation of the day-to-day records and project report submitted for the end-semester viva-voce examination conducted by the external examiner	60	20%
Total Marks	300	

INTERNAL EVALUATION OF PROJECT

4.3 ONLINE COURSES - GUIDELINES

- A student gets an option for acquiring a maximum of 180 credits for a 3-year (6 semester) UG programme. The additional 47 credits over the minimum of 133 can be acquired through online courses.
- A student gets an option for acquiring a maximum of 240 credits for a 4-year (8 semester) UG programme. The additional 63 credits over the minimum of 177 can be acquired through online courses.
- The Double Major pathway is not extended to the fourth year. In the fourth year, the student can continue to earn the required credits in either Major A or Major B to qualify for a UG Degree (Honours) / UG Degree (Honours with Research) in A or B. If he/she opts to continue with Major B in the fourth year, he/she should earn an additional 15 credits of 300-399 level in B through in-person or online courses.
- Candidates who wish to complete the undergraduate programmes faster i.e. in (N-1) semesters, where N is the number of semesters in an undergraduate programme may do so by completing different online courses equivalent to the required number of credits.
- Students are entitled to earn maximum 16 credits through online courses in their eighth semester to complete the minimum credits required for the award of the four-year Honours Degree.
- In the case of a student in UG Degree (Honours) or UG Degree (Honours with Research), who goes to another institution for doing the Project in semester VIII, he/she can choose to do all the three courses (for the additional 12 credits) as online courses from the collection approved by the BoS in the discipline.
- The students have the option to take two online courses in the fourth year, including the course on research methodology, either in semester VII or in semester VIII, but their credits shall be added to the student's account only in semester VIII.
- In the case of the students of UG Degree (Honours), who go to another college/ university/ higher education institution for their Project in the eighth semester, along with doing their Project, they can enroll for maximum four courses offered by that institution, provided it is permitted by that institution, to earn 4-credits corresponding to one Major course and 12-credits corresponding to the three additional courses of the eighth semester. In the case of the students

of UG Degree (Honours with Research), this facility can be used to earn 12-credits corresponding to the three additional courses of the eighth semester.

- Students can select online courses from collection given in the table below. Students are supposed to register for the courses, complete it in the stipulated time, write the exam and produce the certificate of successful completion for getting the credit.

5.LETTER GRADES AND GRADE POINTS

- Mark system is followed for evaluating each question.
- For each course in the semester letter grade and grade point are introduced in 10-point indirect grading system as per guidelines given below.
- The Semester Grade Point Average (SGPA) is computed from the grades as a measure of the student's performance in each semester.
- The Cumulative GPA (CGPA) is based on the grades in all courses taken after joining the programme of study.
- Only the weighted grade point based on marks obtained shall be displayed on the grade card issued to the students.

LETTER GRADES AND GRADE POINTS

Sl. No.	Percentage of Marks (Internal & External Put Together)	Description	Letter Grade	Grade Point	Range of Grade Points	Class
1	95% and above	Outstanding	O	10	9.50 – 10	First Class with Distinction
2	Above 85% and below 95%	Excellent	A+	9	8.50 – 9.49	
3	75% to below 85%	Very Good	A	8	7.50 – 8.49	
4	65% to below 75%	Good	B+	7	6.50 – 7.49	First Class
5	55% to below 65%	Above Average	B	6	5.50 – 6.49	
6	45% to below 55%	Average	C	5	4.50 – 5.49	Second Class
7	35% to below 45% aggregate (internal and external put together) with a minimum of 30% in external valuation	Pass	P	4	3.50 – 4.49	Third Class
8	Below an aggregate of 35% or below 30% in external evaluation	Fail	F	0	0 – 3.49	Fail
9	Not attending the examination	Absent	Ab	0	0	Fail

- When students take audit courses, they will be given Pass (P) or Fail (F) grade without any credits.
- The successful completion of all the courses and capstone components prescribed for the three-year or four-year programme with 'P' grade shall be the minimum requirement for the award of UG Degree or UG Degree Honours or UG Degree Honours with Research, as the case may be.

5.1. COMPUTATION OF SGPA AND CGPA

The following method shall be used to compute the Semester Grade Point Average (SGPA):
The SGPA equals the product of the number of credits (C_i) with the grade points (G_i) scored by a student in each course in a semester, summed over all the courses taken by a student in the semester, and then divided by the total number of credits of all the courses taken by the student in the semester,

$$\text{i.e. SGPA } (S_i) = \frac{\sum_i (C_i \times G_i)}{\sum_i (C_i)}$$

where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course in the given semester. Credit Point of a course is the value obtained by multiplying the credit (C_i) of the course by the grade point (G_i) of the course.

$$\text{SGPA} = \frac{\text{Sum of the credit points of all the courses in a semester}}{\text{Total credits in that semester}}$$

ILLUSTRATION – COMPUTATION OF SGPA

Semester	Course	Credit	Letter Grade	Grade point	Credit Point (Credit x Grade)
I	Course 1	3	A	8	3 x 8 = 24
I	Course 2	4	B+	7	4 x 7 = 28
I	Course 3	3	B	6	3 x 6 = 18
I	Course 4	3	O	10	3 x 10 = 30
I	Course 5	3	C	5	3 x 5 = 15
I	Course 6	4	B	6	4 x 6 = 24
	Total	20			139
	SGPA				139/20 = 6.950

- The Cumulative Grade Point Average (CGPA) of the student shall be calculated at the end of a programme. The CGPA of a student determines the overall academic level of the student in a programme and is the criterion for ranking the students.

CGPA for the three-year programme in CUFYUGP shall be calculated by the following formula.

$$\text{CGPA} = \frac{\text{Sum of the credit points of all the courses in six semesters}}{\text{Total credits in six semesters (133)}}$$

CGPA for the four-year programme in CUFYUGP shall be calculated by the following formula.

$$\text{CGPA} = \frac{\text{Sum of the credit points of all the courses in eight semesters}}{\text{Total credits in eight semesters (177)}}$$

- The SGPA and CGPA shall be rounded off to three decimal points and reported in the transcripts.
- Based on the above letter grades, grade points, SGPA and CGPA, the University shall issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

1	Mapping and Surveying: <ul style="list-style-type: none"> Objective: To understand the layout of the village and its geographical features. Practical: Provide students with maps and ask them to create a map of the village, marking important landmarks, roads, water sources, and other significant features. They can also conduct a simple survey to gather information about the population, occupations, and basic amenities. 		
2	Community Interaction: <ul style="list-style-type: none"> Objective: To understand the social structure and community dynamics. Practical: Arrange for students to interact with villagers, perhaps through interviews or informal discussions. They can inquire about local customs, traditions, and social issues. This activity helps in gaining insights into the community's way of life. 		
3	Environmental Assessment <ul style="list-style-type: none"> Objective: To assess the environmental conditions and challenges in the village. Practical: Conduct a brief environmental study where students observe and document aspects like waste management, cleanliness, and the general state of the surroundings. This can lead to discussions on the importance of environmental conservation 		
4	Reflection and Report Writing <ul style="list-style-type: none"> Objective: To process and document the learning from the village visit. Practical: After the visit, ask students to write reflective reports summarizing their observations, experiences, and the lessons learned. This encourages critical thinking and the application of theoretical knowledge to real-world situations.

V	Open Ended Module: EXPERIENCING THE URBAN		12	10
	1	Seminar/Field Visit to Urban Centres: Give students opportunity to visit urban centres like a city area, Mall, etc., and allow them to make a report based on their observations. Theoretical frameworks can be used for better evaluation. This work can be either done as individual or group basis. Ask reports from the students.		
	2	Groupwork based on Field Visit to Slum Areas: Provide students with an opportunity to visit a slum area and ask them to understand the life of people in a slum area. They will be directed to apply theoretical frameworks to understand the region. Group work will be better. Instruct the students to engage in group discussions and make presentations on their observations.		
	3	Interaction with experts: Provide students with opportunities to interact with urban planners or scholars on urban studies to understand the planning and development logic of an urban space.		

4	Film Screening: Movies focusing on the Urban life can be shown to the students. Collect reports or conduct group sharing.

V	Open Ended Module: CRITICAL GAZE TOWARDS THE DOMINANT DISCOURSES	12	10
1	Deconstructing the Dominant Constructions – Sociological analysis of the representation of indigenous/tribal ways of life in the visual and print media. This will enhance the student’s critical knowledge about how the larger society has been depicting the tribal life situations and problematize the tension between dominant narratives and perspectives of tribes.		
2	Familiarizing with the Writings of Tribes – Reading the autobiographies/ other writings emerging from various Adivasi life contexts across India. The student or group has to produce brief analytical review essays based on their learning from the texts.		
3	Learning from the Field/Learning with the Community - Each group or student can conduct a field visit to the tribal hamlets/institutions such as NGOs, Tribal Museums, and Tribal Research Centres and prepare a field study report based on the conceptual, theoretical, and methodological insights developed through the course.

Course Title	SOCIOLOGY OF RELIGION				
Semester	VI				
Academic Level	300-399				
Course Details	Credit	Lecture per week	Tutorial per week	Practical per week	Total Hours
	4	4	-	-	60
Pre-requisites	1. General knowledge about religion as an institution				
Course Summary	The sociology of religion is a subfield of sociology that examines the role of religion in society. It explores how religious beliefs, practices, and institutions shape individual behaviour, social structures, and cultural norms. Key topics within this field include religious identity, religious organizations, secularization, religious diversity, and the relationship between religion and other social institutions such as politics, economics, and education. Sociologists of religion seek to understand how religious beliefs and practices both reflect and influence broader social patterns and dynamics

Course Title	COLONISATION AND DECOLONISATION: EMERGING DISCOURSES				
Semester	VI				
Academic Level	300 - 399				
Course Details	Credit	Lecture per week	Tutorial per week	Practical per week	Total Hours
	4	4	-	-	60
Pre-requisites	1. Basic knowledge about the colonization process 2. A general understanding on the colonial presence in India especially Kerala				
Course Summary	This course offers a nuanced exploration of the historical, theoretical, and contemporary dimensions of colonialism and its aftermath. Beginning with a foundational understanding of colonialism's definitions, causes, and types, the course delves into diverse regional experiences, examining the implications of colonial discourses, the dynamics of resistance, and hybrid identity formations. The discourse extends to the post-colonial era, critically analysing the nature and manifestation of post-colonialism, along with influential figures like Edward W. Said, Gayatri Chakravorty Spivak, and Homi K. Bhabha. Addressing contemporary manifestations, the course scrutinizes the impact of globalization, neo-colonialism, and introduces the concept of digital colonialism. By comprehensively engaging with these themes, the course equips students with a robust sociological framework to understand the complexities of colonial histories and their enduring effects on societies globally.

V	Open Ended Module: PERCEIVING COLONIAL DISCOURSES	12	10
	1.Case study/Assignment/Seminar: Assign students to analyze a specific case study related to colonialism or decolonization from a region of their choice. They can research historical documents, academic articles, and primary sources to understand the context, causes, and consequences of colonialism in that particular area. Students can either present their findings to the class or submit a report on the complexities of decolonization processes. 2.Debate: Divide the class into groups and assign each group a colonial discourse, such as Orientalism or Cultural Imperialism; Colonial benefits vs Colonial effects, etc. Students should research the origins, key proponents, and impacts of their assigned topic. Then, organize a debate where each group presents their arguments and counterarguments, engaging in critical dialogue about the implications of these discourses on society.		

	<p>3. Field visit: Organize a field trip to a museum, historical site, or community organization that focuses on colonialism or decolonization. After the visit, students can write reflective essays or create multimedia presentations discussing their observations, insights, and connections to course concepts</p> <p>4. Film Screening: Select a documentary or film that addresses themes of colonialism or decolonization. Screen the film in class or assign it as homework, and then facilitate a discussion session where students analyze the film's portrayal of historical events, power dynamics, and resistance movements. Encourage students to critically examine the narrative and visual representation of colonial experiences. Rather than discussion/presentations, reports on the same can be collected.</p>

	1	<ul style="list-style-type: none"> • Conduct PRA: Divide students into small groups and assign each group a local community or neighbourhood to study. Task students with conducting a community assessment and asset mapping exercise, identifying community needs, resources, strengths, and challenges. Provide guidance on using participatory methods such as interviews, surveys, and mapping techniques. In a follow-up session, have each group present their findings and discuss potential community development opportunities based on their assessment. • Assignment: Assign students to research a specific government policy or program related to community development in India, such as the National Rural Employment 		

2		<p>Guarantee Act (NREGA) or the Integrated Child Development Services (ICDS) scheme. Have students analyze the policy's objectives, implementation, and impact on communities, considering different stakeholders' perspectives. Organize a simulation where students role-play as policymakers, community members, and advocacy groups, engaging in a mock policy debate or negotiation session. Encourage students to develop policy recommendations or advocacy strategies to address identified gaps or issues in the policy.</p> <ul style="list-style-type: none"> • Community Engagement Project: Collaborate with a local community organization or NGO working on a community development project in a nearby area. Task students with volunteering or assisting in the implementation of the project, under the guidance of the organization's staff or volunteers. Assign students to reflect on their experiences, documenting challenges faced, lessons learned, and their contributions to the project. Organize a debriefing session where students share their reflections and discuss the practical implications of community development theories and approaches in real-world contexts. 		
3		<ul style="list-style-type: none"> • Seminar: Provide students with case studies of community development initiatives or projects implemented in different regions of India. Divide students into groups and assign each group a case study to analyze, focusing on the project's goals, strategies, outcomes, and lessons learned. Have each group prepare a presentation summarizing their findings, highlighting key successes, challenges, and recommendations for future practice. Facilitate a discussion where students compare and contrast the different case studies, identifying common themes and best practices in community development. 		
4		<ul style="list-style-type: none"> • Policy Brief Writing and Presentation: Assign students to work individually or in pairs to develop a policy brief on a selected community development issue or challenge in India. Provide guidelines for structuring the policy brief, including an overview of the problem, analysis of relevant policies or programs, and recommendations for action. Have students present their policy briefs in a simulated policy forum or stakeholder meeting, pitching their recommendations to a panel of peers acting as policymakers, government officials, or community leaders. Facilitate a discussion where students receive feedback on their policy proposals and engage in constructive dialogue on potential strategies for addressing the identified issue.

V	Open Ended Module: PRACTISING ETHICAL BEHAVIOUR	9	5
	<p>Assignment: A report to understand various International and National policy level ethical principles for virtual space</p> <p>Seminar/Discussion/Debate: Assign students to analyse media content (e.g., news articles, films, social media posts) through an ethical lens. They can examine how ethical principles are portrayed or violated in the media's representation of societal issues. In class seminars or discussions, students can reflect on the ethical implications of media messages and the role of media in shaping public perceptions and values</p> <p>Group work: Provide students with real-life ethical dilemmas related to societal issues such as environmental conservation, healthcare access, or social justice. In small groups, students can analyze the case studies, identify ethical principles at play, and discuss possible</p>		

solutions. This activity encourages critical thinking, ethical reasoning, and collaboration.

Community Service:

Encourage students to apply ethical principles in action by organizing a community service project. Working in groups, students can identify a local social issue or organization that aligns with the course themes (e.g., homelessness, environmental sustainability) and develop a plan to address it ethically. This hands-on experience fosters empathy, social responsibility, and practical application of ethical concepts.
