THEME & FOCUS

Being the defending best Women Development Cell of the Calicut University, we have created a new route the current year.

Unlike the last year where our focus was on making interaction with noted personalities possible, we have set the entire year around the theme of **WOMEN EMPOWERMENT THROUGH EMPLOYABILITY, ENTREPRENEURSHIP AND PERFORMANCE .**

And, hence, the programs are designed to provide skill development, encourage entrepreneurship and making them suitable for performance at any and every stage of life.

INTRODUCTION

> All Kerala Women student entrepreneur award

> Women empowerment through performance and arts

> How to leave after studies training by professional coaches

Women Development Cell of The Zamorin's Guruvayurappan College has celebrated the year with a special focus on after-college life. The programs are organized to train the students for a real work life. Entrepreneurship award and skill development courses by industry experts ignite the possibility to a great extent. The classes are developed with a mission to make the students capable of living bold and facing the realities of the modern life challenges with the much-needed enthusiasm and courage.

Personalities from various walks of life has joined the conversations and events around the core theme of women empowerment and inter-act with the students both offline and online. Started with a skill development course and lead to win personality development sessions, the complete focus was on making the students capable winning social challenges. .

This year, women development cell celebrated all the events with unique personalities from different walks of life. We hereby submit the annual report with details of the events on chronological order.

Creating An Equal Society through Women Participation

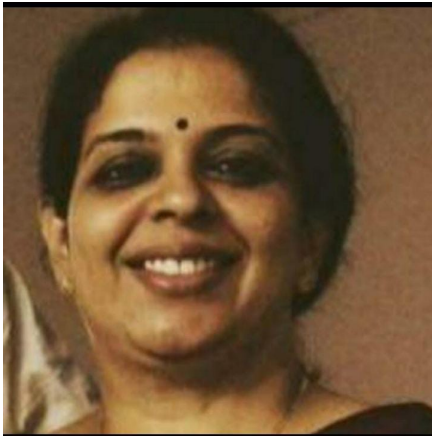

College life is complete only when it prepares the students for longer, happier life amidst the challenges of the modern day society. And, hence, we, the Women Development Cell of the, The Zamorin's Guruvayurappan College, has started the year with a mission of making them capable of facing realities of life through various workshops, inter-active sessions. It was truly an enriching experience with some of the most prominent speakers coming on board to deliver lectures and interact with a very energetic young audience at the women's cell.

At the beginning, we had decided to celebrate the Year with a handful of events that elevate the mental and physical growth of the women community and we achieved it with quite lot of pride and happiness. Women speakers filled the venues and minds at the events planned, organised and conducted by women. Women empowerment is not just heard, it was visible all-across the year.

The participation to the State Level Women Student Entrepreneur Award was quite remarkable and we were surprised with the interesting socially-committed life of our young generation, giving confidence to the future of our women. We thank the entire students, teachers and well-wishers who helped us making the year remarkable. We continue promoting the social well being activities of the women students in the coming years.
